

# MAKING CLIMATE PROGRESS TOMORROW BEGINS BY MEASURING OUR CARBON FOOTPRINT TODAY

Complete  
survey & be  
entered to **win**  
**locally-sourced**  
**prizes!**

## Take the Philipstown Community Survey!

In 2017, the Philipstown Town Board passed a resolution to become a “Climate Smart Community.” Since then, a volunteer task force has been working on a checklist of actions, which includes measuring our Town’s “carbon footprint.” By completing this survey, you can help our Town develop a “Climate Action Plan” to reduce our collective greenhouse gas emissions and make consumption choices that support our local economy.

**This is** a confidential, voluntary household survey that is helping the Town of Philipstown’s Climate Smart Community task force measure our Town’s carbon footprint.

**All households** in Philipstown are eligible to participate (zip codes 10516 + 10524)

**How long will it take to complete?**  
15-30 minutes  
(depending on the household)

To complete the survey, please visit either [climatesmartphilipstown.org](http://climatesmartphilipstown.org) or [bit.ly/Ptownsurvey](http://bit.ly/Ptownsurvey)
